*Aspiring full-stack web developer transitioning from Mechanical Engineering and currently studying Computer Science.
Building skills in HTML, CSS, JavaScript, React, Git, and responsive web design, with interest in developing web applications and integrating APIs.*

EDUCATION

iHub Africa

Full Stack Web Development

Johannesburg

March – September

Zaio Institute Of Technology

Full Stack Web Developer Bootcamp

Cape Town

April – October

Ekurhuleni West College

Mechanical Engineering N4-N6

Germiston

June 2021 – October 2022

EXPERIENCE

Tirisano Cellular Insurance

Technician/Quality Contoller

February 2023 – June 2024

Boksburg

- Diagnosed faults on devices and performed necessary repairs and software updates
- Selected and ordered replacement parts for repairs
- Performed quality control checks on refurbished devices
- Tested devices and ensured fault-free operation before delivery
- Documented issues and completed follow-up maintenance as needed

PROJECTS

[Google Keep Clone \(React\)](#) / HTML, CSS, JavaScript & React

- Built a responsive note-taking application inspired by Google Keep using React.
- Created reusable React components for a clean and maintainable codebase.
- Implemented functionality to create, view, and delete notes.
- Managed application state using React Hooks (useState).
- Designed a responsive user interface with HTML and CSS for desktop and mobile devices.

[Book Library \(React & Open Library API\)](#) / HTML, CSS, JavaScript & React

- Built a responsive book search application using React and the Open Library API.
- Developed a custom React Hook to fetch and display book data.
- Implemented search, pagination, and loading/error handling for a smooth user experience.
- Used React Hooks, HTML, CSS, Git, and GitHub to build and manage the project.

TECHNICAL SKILLS

Programming Languages: HTML, CSS, JavaScript & Python
